

SMART Board® 800 series interactive whiteboard

Create a more collaborative and engaging classroom for your students with a SMART Board 800 series interactive whiteboard.

SMART®

Powered by SMART Learning Suite

SMART Learning Suite includes SMART Notebook®, SMART lab™, SMART response® 2 and SMART amp™. Together, they connect students, teachers and devices to turn lessons into enriching learning experiences.

Key Features

Dual touch capabilities

DViT® technology supports two simultaneous touches, making it easy for students to work together at the same time.

Multitouch experience

Four users can write, perform mouse functions, erase and manipulate objects at the same time with hand gestures.

Freestyle interaction

Teachers and students can write in digital ink, move objects with their fingers and much more, without the need to switch to a multiuser mode.

Object awareness™

Cameras know when a user switches between their finger, fist or a pen. A user can also write with a pen, erase with a palm and move objects with a finger, without having to press buttons, access on-screen menus or replace tools in the Pen Tray.

Touch gestures

Toss, rotate and interact with objects while using SMART Notebook software. Includes built-in support for multitouch operating systems such as Windows® 7, Windows® 8 and Mac® OS X.

SMART ink™

Write over websites, videos, PDFs and Microsoft Office® files and save your notes in almost any file type.

Projector Controls

The SMART Board® 800 series, with projector controls, is compatible with Epson PowerLite® 530, 580, 585W, 680 and 685W projectors for SMART. The projector control panel is integrated into the pen tray to easily control projector power, volume and input select.
