

Create engaging activities in 5 minutes

SMART lab gives teachers the means to quickly build game-based activities and get timely insight into students understanding. Students are too busy having a great time to realize how much they are learning! The fun activities amaze and engage them on their devices or front-of-room display.

Collaborate Naturally™

SMART

Here's how you do it

Select your activity

Nine activity templates, with more always being created, let you keep things fresh.

Customize your content

Insert lesson content that fits your teaching and learning needs, no matter the subject or grade level.

Start playing

Push the lesson out to student devices, or have students play it on your interactive display – either option works

Activity templates

There are nine activities, with more being developed all the time. Plus, there are a variety of themes you can match each activity with to keep them fresh and engaging!

Speedup

It's a race with each right answer moving students ahead!

Label Reveal

Identify each part of the diagram and remove the label to see if students are right.

Shout it Out!

Add words or images from students' mobile device, laptop or desktop computer.

Super Sort

Sort everything into groups: nouns and verbs, mammals and reptiles or anything else.

Fill in the Blanks

Drag and drop to fill in missing words, phrases or numbers.

Match 'em Up!

Why draw lines when students can drag items across the display to match them?

Rank Order

Have students arrange items in the order you select, like smallest to largest or steps in a process.

Flip Out

Memory cards are tons of fun and a great way to remember concepts. Students flip out for this digital version.

Monster Quiz

Students build up these loveable monsters every time they answer a question correctly. Plus, they can do it from their mobile devices!
