

SMART TeamWorks software

Plan. Collaborate. Recap.

SMART TeamWorks software is designed to leverage the power of SMART Board® interactive displays for fast, flexible and limitless collaboration. With one-touch meeting launch, a connected whiteboard, wireless screen sharing and customized PDF summaries, SMART TeamWorks is your end-to-end visual collaboration solution.

Available by subscription.

Contribute from anywhere – in real-time

The Connected and Server editions of SMART TeamWorks let participants add notes and dynamic content to the connected whiteboard from any iOS®, Android™ or Windows® device. Remote team members can manipulate content as easily as their colleagues in the room.

Subscription Editions

Applications

Plan and launch

- Integration with **Microsoft Exchange** for easy scheduling and set up of meetings
- SMART Board automatically turns on when you walk in the room and displays the meeting **calendar, date and time**
- Start meeting from calendar display with one-touch Exchange, **Skype** and connected whiteboard launch
- Customizable **home screen** and application launcher screen

Collaborate and share

- **Connected whiteboard** lets teams add and interact with all sorts of dynamic content – images, PDFs, Microsoft Office® files, websites and videos – for limitless collaboration
- Participants can join and contribute to the whiteboard from devices via meeting PIN or QR code through a free app
- Unlimited sticky notes to add ideas and files
- Speech to text conversion and voice commands
- **Wireless screen sharing** for up to 8 devices – iOS® (AirPlay), Android™ (Google Cast), and Windows® (Miracast) – at 60Hz for a smooth, lag-free performance
- Compatible with **any conferencing solution**, so sharing content with remote participants is easy

Unparalleled Collaboration – Only with SMART Board interactive displays

- **SMART Ink®** software lets colleagues write into dynamic content including shared screens, and save changes in the PDF recap
- **Simultaneous Tool Differentiation** lets multiple people use pens, erasers and fingertips at the same time

Recap and reset

- Email or save a customized PDF summary of the whiteboard content
- Clear the whiteboard with a touch or voice command
